ADDITIONAL INFORMATION

These gazebos come in 5 different sizes:
3m x 3m, 3m x 4m, 5m x 3.5m, 6m x 3m and a wall
mounted 3m x 3.6m.
Height: 2.4m

Our larger sizes (3m x 4m, 5m x 3.5m, 3m x 6m)
all come fitted with two roofs which are operated
independently from each other. They also have a
middle beam measuring at 17cm x 4.7cm for added
support.

The two smaller sizes (3m x 3m and 3m x 3.6m) only
have one roof.

All the gazebos are fitted with 12cm x 12cm chunky
legs.

All gazebos come with 4 screens apart from:
3m x 3.6m wall mounted (3 screens).
5m x 3.5m and 6m x 3m (6 screens).

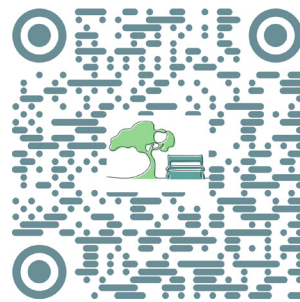

RAL Colour Codes:
Louvered roof — Traffic White (RAL9016)
Eclipse Frame — Anthracite Grey (RAL7016)

There is a 5-year guarantee on the frame and a 2-year
guarantee on the screens.

Installation is available for these gazebos. Please call
our office on 01564 793 652 for a quote.

THE ECLIPSE GAZEBO

THE GARDEN FURNITURE CENTRE LTD

EST. 1999

THE NEW ECLIPSE RANGE

Our Eclipse gazebos are revolutionising the way you can make the most out of your garden space!

This design is much more than just a gazebo. With its stylish and innovative powder coated aluminium frame and elegant textilene pull down screens, this will certainly be the centre of attention in your outdoor area!

Minimal maintenance, and colours that remain vibrant after years of outdoor exposure.

WHY THE ECLIPSE?

The Eclipse gazebo is versatile and sophisticated within any area whether it is commercial or domestic. It will certainly make your outdoor area perfect for relaxing with friends or hosting your evening gatherings with its motorised roof and weather resistant screens!

MOTORISED LED ROOF

The motorised LED roof is the main feature of our Eclipse range due to its smooth and refined mechanism which is opened by either a remote control or fixed switch. With our larger sizes (3m x 4m, 5m x 3.5m, 6m x 3m) this roof is split into two sections which are independent from each other meaning that you have the freedom to control them separately! Fitted with LED lights and traffic white louvers, this roof emits style and beauty when illuminated in the night sky for the most mesmerising display.

THE DRAINAGE SYSTEM

Much like our Galaxy gazebos, the Eclipse has an intelligent drainage system for rainwater to pass with ease. When the roof is shut, the rainwater will run smoothly down the drainage channels located within the legs to offer an easy route for the water to escape without any mess!

THE SIDE SCREENS

With our Eclipse gazebos, they are all fitted with rain and wind proof textilene screens which are fully equipped with a locking system at the bottom.

These screens are beautifully finished with a fresh dark grey shade to compliment the elegant design of the Eclipse frame.

Made from textilene PVC coated fabric, these screens are not only incredibly strong but are resistant to fire, mildew and extreme hot and cold temperatures!

These screens can hold at any height and require minimal to no maintenance when exposed to the outdoor elements!
