

FIREWOOD RACK – SAFETY INSTRUCTIONS AND CARE

WOOD RACK-Heart

80 X 30 X 113 CM

EN

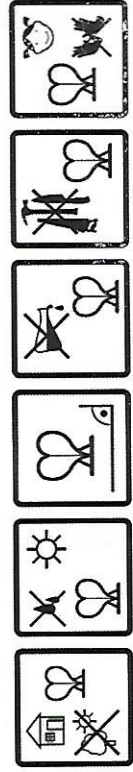

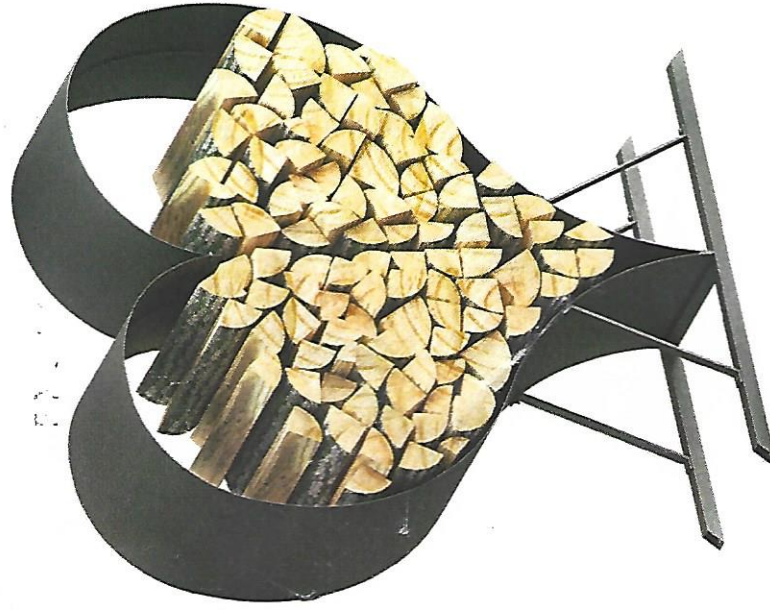

Safety instructions

The following instructions must always be followed:

- The firewood rack is for indoor use only.
- The firewood rack is for dry/seasoned firewood storage only.
- The wood has to be cut in chunks of appropriate size for rack.
- The firewood rack should stay at horizontal flat floor.
- When firewood rack is filled by firewood - should not be moved because may damage the floor.
- The firewood rack should be protected against mechanical damage - chipping and scratching. Otherwise in consequence corrosion in rack surface may appear.
- In contact with strong chemicals such as a liquid kindling a surface of rack can be damaged.
- The product is not intended for children.

Cleaning

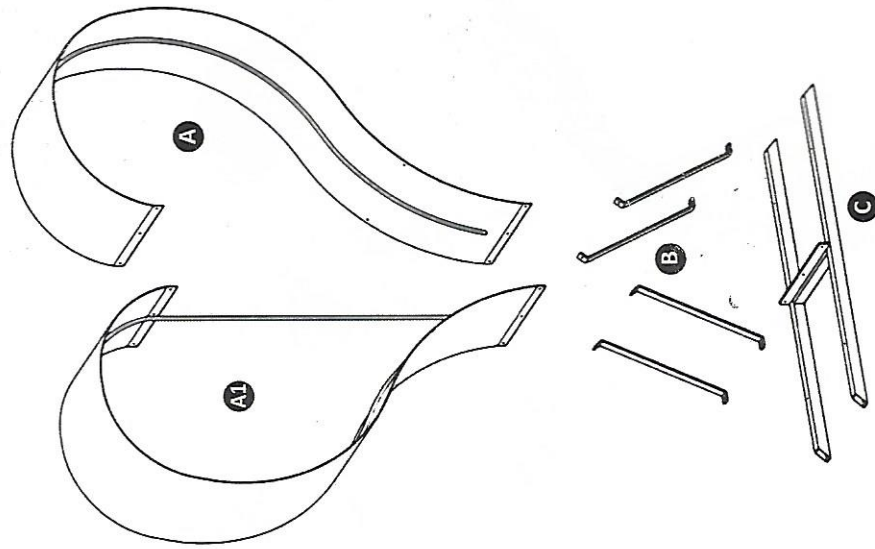

Clean the firewood rack with a soft brush or cloth to remove the residue of wood. The firewood rack should be regularly wiped with a cloth moistened with warm water with addition of a mild detergent (in the proportion 5:1).
